

# You need it — **EHR Now!**

The Florida Academy of Family Physicians can help you get EHR...  
*...and the help is free.*

## Free EHR services for FAFP members

---

**Q:** Have you decided to move into electronic health records (EHR) but don't know how to proceed?

**Q:** Are you daunted by the number of available products and uncertain about what's right for your practice?

**Q:** Do you need a toolset to analyze your current workflow/processes to ensure efficiency, less frustration and more satisfaction for your patients?

**A:** If your office is ready for the future of family medicine but is overwhelmed when it comes to electronic health records, the Florida Academy of Family Physicians (FAFP) can help. We have partnered with FMQAI to provide FAFP members with up to 64 hours of free consultative services, valued at more than \$12,000, to assist you in selecting, contracting and implementing electronic health records.

As part of our new **EHR Now!** program, our consultants will help you transition your medical records from paper to paperless, and we'll be with you every step of the way.

Services offered include:

- Initial readiness assessment
- Workflow evaluation
- Detailed practice and systems assessment
- On-site consultations and phone conferences
- Vendor list and assistance in narrowing vendor choice
- Contracting resources
- Implementation options, checklists and timeline

Providing FAFP members with the resources they need to enhance office operations, ensure future connectivity and thrive in the future of family medicine is our first priority.

## Who Are Our Consultants?

---

We have carefully selected experts in the field of EHR to assist you in the process of implementing your system. Your family medicine colleagues who have successfully implemented EHR programs will join practice management information technology consultants to assist numerous practices in making this transition. Learn from a physician just like you who made it through the journey to "Go Live!"
